**Music Information:**

We can add the music you own to your wedding slideshow at no charge to you. Send your CD or MP3 files with you order. We are able to accept your music on burned CD copies instead of having to send the original. We have found that the best wedding slideshows match the amount of the photos with the length of the music. Most photos are on the screen between 3-6 seconds with transitions between photos. For example if your song is approximately 4 minutes long, equals 240 seconds, divide this by 4.5 sec. (average), equals 53 photos. We will do our best to synchronize your photos to the length of the music you have chosen for your wedding slideshow.

Below, please fill in which songs you are using and the photos that you would like used.

| Song Title | Track Location | Photos Used With Song |
